Holly is a suspended luminaire for accent lighting applications. Its stylish and elegant geometry and its solid body of machined aluminium define a piece of a highly decorative character and perceived high quality. Its light beam, strictly defined by a micro-reflector, optimises the light beam of the LED, in order to obtain a relatively elevated illuminance at the working plane, thanks to a remarkable utilization of the lumen gross flow. To install the luminaire, Holly gets implemented by means of a recessed ceiling base, discrete and integrated. Its most frequent applications are counters, bedside tables, stairwells, etc.

DIMENSIONAL DRAWING

Wire Trimless Accessory is a collection of accessories for fitting tensioners and cables to Arkoslight luminaires suspended directly from the ceiling with any visible ceiling rose or fixings. This achieves a minimalist application with a visually tidy finish.

With Wire Trimless Accessory the items adjacent to the ceiling of the standard product (ceiling roses, fixings, driver boxes, etc.) are concealed by a simple recessed application.

Wire Trimless Accessory reduces the visual impact of the installation leading to extremely minimalist aesthetics. The wires come out of the ceiling material as a part of the structure. This detail creates a much purer, more essential layout, particular when several luminaires are fitted in an arrangement.
